TABLET UNVEILED THATE GRIMSBY BOYS AN-TO LIEUT. ROB-

Brass Plate the Gift of Fellow Officers of the Late Lieut. now Affixed to Wall of St. Andrews Church

KILLED ONE YEAR AGO

Unveiling was Conducted by Rev. J. Allan Ballard, who Referred Briefly to the Circumstonces Surrounding it

Sunday last at the morning service there was affixed to the wall of St. Andrew's church a brass plate, the gift of the fellow officers of the late flight lieutenant Thomas Robson Liddle. Before the prayers of dedication and of thanksgiving for those who had given their lives in the service of the Empire the Rector, J. Allan Ballard, referred thus briefly to the boy whose life had been spent in our Well Known "Enlister" and

"We unveil to your observation this morning a small tablet which has been placed here to perpetuate the memory of a bright young tactuber of this congregation. A year ago to-morrow he fell in England while fitting himself for his hazardous enterprise. Knowing his ability and spirit it was hoped that some skilful; feat on his part might give us opportunity to share the pride of his dar- John Edward is barely twenty-one ing, but it was not to be for he fell years of age, yet he has had a more before he had even seen the foe. E. H. NOLAN

The terrible lighting at Vincy Ridge, on Easter Sunday and succeedby wire to the local G.N.W. office.

Three GRIMSBY boys are reported killed In Action since our last issue, one of them, Pte, Coyne Lewis, bring previously reported wounded and missing in Vehruary, he is now reported officially dead. Trooper Charlie Hughes, reported kiffed, was a well known boy about town and saw a fot of tighting before receiving his death wound, it is over a year now since Charlie went into the trenches and no doubt he has accounted for a good many Huns in that time,

The recent heavy lighting at Aricans will no doubt bring forth another beary casualty list, and we must be prepared for the worst. It is only natural that any manicipality that has an enormous amount of men at the front, whether it be city or hamlet, should receive heavy cusualties. They must be expected, GRIMSBY with over four bundred men in different branches of the army and may must look forward to large numbers of injured. They cannot all escape unhart, although we have been very lucky so far.

TROOPER CHARLES ALEXANDER HIGHES, reported "Died of Wounds" on Thursday morning is the youngest of three brothers all serving in the Canadian many in France. Charley previous to the war was a member of "Fighting B" Squadron and and been to Niagara Camp with them. Shortly after war broke out he enlisted with the Canadian Mounted Rifles and had been in France for maky months before being fatally wounded at Vimy Ridge, while helping to bring the most notable victory of the war to Canadian Arms. The decimend trooper was the son of Mr. and Mrs. William Hughes, Gibson Ave, and the shock to the mother was a hard one, but may she always cherish thought that she "Mothered a man" who was willing to make the supreme sacrifice in this great struggle for humanity, liberty and justice, as brother, Harry, a member. of an infantry battalion was wounded last winter, but is now well on the road to recovery. The father of these three gallant boys enlisted for Overseas with the 176th, but was turned last by the Medical Board, and is now doing his duty on the Welland Canal A brother-in-law, Bandsman Wally Brown, is also overseas,

PTE. EWART M. COWAN. Is a GREMERY boy who enlisted with a Harding harding account of the first the big battle at Vimy Ridge, Pte, Cowan, or "Dodger" as he was more popularly called by his friends here, was the second son of the late William and Mrs. Cowan, of Ontario St. He was born here twenty-seven years ago and lived here all his life up till about four years ago when he moved to Hamilton and went to work for the GTR, as a brakesman, which position he held up till the time of his enlisting. His father died last January. Another brother, William, is in France with a local battalion. Besides, a wife, (who was Miss Faunie Elsle Sharpe, danghter of Mr. and Mrs. William Sharpe, St. Andrewa Ave., and sister of Pto. Maurice Sharpe, reported missing, and Pte. Reg. Sharpe, in France) this brave soldier, who laid down his life for his Hearth and Country, leaves three small children, who will always have reason to speak with reverent pride of their soldier

PTE, COYNE LEWIS, son of W. E. Lewis, 321 Jackson Street West, Hamilton, who was reported "missing, believed wounded," on Feb. 27, is now announced to have been killed in action on that date. Pte. Lewis was born in GRIMSBY 23 years ago and resided there the greater part of his life, but some years ago he went to the west, where he was staying when the war broke out. He culisted with a Westminster, B.C., battalion, but was afterwards transferred to a Moose Jaw unit. He was sent to the firing line in November last year, in addition to his father and stepmother, how survived by a sister and brother. The family has resided in Hamilton for many years.

PTE. JAMES ALLAN FLOCK is reported wounded on April 9, but the telegram received on Friday morning by his mother did not give any particular, as to where or how he was wounded or of what nature his wounds were, Pte. Plock was farming out west of Moose Jaw when war broke out and in the winter of 1916 with his "Pal" Pte, Isane Sweet, sold their crops, their stock and chattels, gave up the lease on their farm and answered the cell of their King and Country. Ptc. Flock was born, raised and educated in this district and is very well and favorably known. He is the only son of Mr. and Mrs. John Flock, Oak St.

PTE, GEORGE GILBERT, of Beamsville, is reported Counded by "Gunsbet in the right arm" on April 9, in a telegram received by his mother, Mrs. C Hewitt, on Friday morning last. Ptc. Gilbert enlisted with a battalian organized by the 90th Winnipeg Riffes and has been in France for a long time. His brother Ernest is also in France,

PTE, STEPHEN E, SPENCER was buried up to his armpits when a new trench in which he was working was blown up by German shell on March 28. The news was received by his wife on Friday last in a letter from him. No notification was ever received by Mrs. Spencer from Ottawa, regarding her huckand's accident, "Old Fritz" was straffing the Canadians pretty beavy at the time Pto. Spencer was buried and his comrades bad a hard fight to get him dag out without being wounded or killed themselves. He is now confined to Stockport Hospital and reports his condition much improved. No bones were broken but he was badly crushed and bruised about the legs and body. Ptc. Spencer left here with a local battation last spring and has been in France since November of last year. When in GRIMSBY he was employed on Supt. Bromley's Waterworks gang.

PTE. WILLIAM COWAN, writing to his mother, Mrs. William G. Cowan, Ontario St., on April 12th, from the Cottage Hospital, Southport, England, tells of being wounded slightly in the small of the back by a piece of shrapnel, while taking part in the storming of Vimy Ridge on April 5th. He also states that he met his brother, Pte, Ewert Cowan, just one week previous at a church service behind the lines, and just a few days refore the brother was killed.

PTE. DONALD WATT, a son of Mrs. Watt, of Beamsville, is now in No. 7 General Hospital suffering with Gunshot in the thigh, and it is reported to be a severe wound. Pte. Watt enlisted from the West with an Edmonton Battalion, and was never in this district. His younger brother who moved to Beamsville with the mother, is now overseas, a member of a local battalion.

PTE. HAROLD BROOKS, an Englishman with the 120th City of Hamilton battalion, is reported wounded as a result of the Vimy Ridge fighting. He was engaged as a farm hand at Grasise's Corners when he answered the call. His relatives all reside in England.

PTE, ALFRED MILES, mentioned Tuesday morning as killed in action, was a resident of Winona, but had been in the employ of the Radiant Electric Company, GRIMSBY and E. D. Smith & Son, shortly before enlistment. He joined the colors in December, 1915, with the County of Wentworth battalion, and after his departure for overseas his wife removed to LeFroy, Ont. Ptc. Miles was born in Canada.

22 YEARS OLD

In the Death of Lieut. Fred Scott, Canada has Lost one of the Finest of its Young Manhood

It was with feelings of grief and a heavy heart that the citizens of GRIMSBY read the announcement in the Toronto papers on Thursday that Lieut, Fred Scott, one of GRIMS By's trightest and most Chivalerous Sons had been killed in action, on April 20th, while gallantly doing ois duty for the Liberty and Righteousness which meant so much to him and his mother and sister. The word was received by his mother Mrs. F. W. Scott, at her home 33 Ramsay Ave., Toronto on Wednes day. Lleut. Frederick Gundy Scott was born in Toronto en November 9th, 1895. His father F. W. Scott, a partner in the firm of A. E. Ames and Co., Financial Brokers, died in Decumber 1898, and shortly after his death the family moved to Victoria Day evening, Thursday, | GRIMSBY and took up their rest-May 24, is going to be a memorial dence on Murray St. in the Bouse Helen at home, one brother Flight Alderman Marsh, chairman of the Lieut, Pearson Scott, now in training

H. G. & B. MUST INSTALL LAVATORIES BY JULY 1st.

For some time now, we have been patiently waiting to see what action the H. G. & B. was going to take with regard to the Ontario Rallway Board's Order to install lavatories on their cars, the said order being upheld by the English-Privy Council.

December 1st, was the time limit set in the Order or the filing of the plans by the H. G. & B. for the installation and construction of the conveniences. The plans were filed inside the time limit, but since that time no move for the installation has been made by the H. G. & B.

On April 19 THE INDEPEDENT wrote the Secretary of the Ontario Railway Board, asking whwat disposition had been made of the Order and by what date were the conveniences to be installed.

The following letter from the Board was received by the Editor of this paper on Saturday and it is selfexplanatory. Toronto, April 27th, 1917. Dear Sir: Re Sanitary Conveniences, H. G. & B. Ry.

(P.F.2786) (P.277). I have the honour to acknowledge the receipt of your letter of the 19th REMEMBER THE PRICE OF EGGS inst. which has been considered by the Board, and by direction of the Board Last winter when they went up to to advise you that the Board is making an Order requiring the Company to complete by the 1st. of July next, the installation of the sanitary conveni-

ences shown on the Con.pany's plans (as amended by the Board) herein. I have the honour to be, Your obedient servant. H. C. SMALL Secretary.

Editor "Grinsby Independent". Grimsby, Out.

FAMINE AND WORLD HUNG-ER ARE ON OUR THRESHOLD

No one can rise from a careful study of the appeal in this issue from the Organization of Resources Committee without feeling that "famine and world-hunger are on our threshold," and that we must produce more food or face a period of terrible want and suffering.

The high cost of living should convince the most skeptical that we are living in no ordinary times. Canada is outside the war zone, it is true, and does not yet know what it means to be put on limited rations, as in Britain, and to be restricted in the use of meat and other comforts of life, It is difficult for those who at present experience no shortage in food to realize that world-hunger may come before the 1918 crop is harvested, unless those who own or till the soil make good use of it this season. A place of honour in the firing line awaits the farmer in the fight against Germany. As Mr. Lloyd

"The line which the British Empire holds against the Germans is held by those who work on the land as well as by those who fight on land and sea. If it breaks at any point it breaks everywhere, In the face of the enemy the scamen of our Royal naval and mercantile marine and the soldiers gathered from every part of our Empire hold our line firstly.
You workers on land must hold your part of our line as strongly. Every full day's labor you do helps to shorten the struggle and bring as nearer victory. Every bile day, all loitering, lengthens the struggle and makes defeat more possible. Therefore, in the nation's honour, heed! Acquit yourselves like men, and as workers on tand do your duty with all your

These are critical times. Victory still hangs in the balance, It is the hope of the enemy to avert defeat by starving Britain into a premature and unstable peace. Under the most favorable conditions the shortage of food throughout the world will increase the military difficulties of the Allied nathroughout the farmer to respond with promptitude to the Call land. Facts and Fancies By Frank Fairborn

The Submarine Mennee:

Fifty-five ships were put down by German submarines the week before last. This was the official Admiralty report for the week.

months after the second German submarine policy was put in force, raised of American citizens in the total 400,000 men we have under arms cannot be consternation in England, and no wonder. The English people and Britons more than 7,500, less than half of whom are now in France. If the writer of everywhere were led to believe that the Admiralty had got the better of the the despatch in question had been governed by scrupulous regard for truth submarines and that instead of an increasing number of ships being sunk to the same extent as he was governed by the desire to please newspaper each week, that the number would gradually decrease, but just the opposite readers in the United States he would have toned down his figures nearly 90 45 Federal Life Building, Hamilton is the case.

the Admiralty. There is a way by which the German submarine menace can from our Expeditionary Force it will be found that General Mason's estimate easily be overcome. The way has been pointed out to the Admiralty, but they of their number is at least large enough. are too slow moving and too obstinate in their methods to adopt it.

organize the shipping to and from England and France into fleets, with each States citizens are fighting in France with the Canadian units. According to ship in the fleet carrying a gun and the whole fleet accompanied by chasers actual statistics compiled by Brigadier-General Mason, the number of United and destroyers and where possible, a cruiser,

It is a well-known fact that the submarine commanders will steer mighty clear of armed vessels. The lives of a submarine crew hangs by thread, and while the men in these submarines are, no doubt, brave and true, it is typical of the spirit of braggadocia and selfishness ever uppermost reckless, yet they will not take unnecessary chances and they will steer as a characteristic of the United States, and in view of the belated entry of clear of armed vessels and chasers and cruisers and destroyers, whenever the States into the war for the freedom of the world from tyranny and opthey can.

A fleet of twenty boats, each boat carrying a gun, and the fleet accompanied by destroyers and chasers would be practically immune from attack and even if the fleet was attacked the moment that one torpedo was fired by WALL PAPER AND ITS EFFECTS No matter what the style i sin paper. a submarine the whole fleet and its consorts would be prepared for action and the submarine would soon make itself scarce, even if it was able to escape without being sunk.

If Great Britain was able, in spite of her unpreparedness, to organize an ermy so powerful that it could not only hold its own in France, but is stead-By gaining ground, then Great Britain could organize its shipping so as to defy the submarines.

The whole trouble is that the Admiralty is tied to its traditions. It is you wit have times one spends so many hours. Nerves' moving, not as a living, up-to-date, live organization, but as a machine, and of your favourite color in your are largely the result of distord and it is trying to fight ideas of 1917 with ideas of 1817.

Britic's what may every new -- be put forward by the Germark, and has latten the Germans at their own game, but the navy has fallen down on every new thing that has been up against them.

The North Sea and the English Channel is supposed to be practically much by color as there are those af- when you are uncomfortable in a covered with chasers and destroyers hunting for submarines, and yet, in fected by sound, spite of the innumerable boats of this kind that are constantly patroling these waters, fifty-five ships are sunk and presumedly not a chaser, nor lestroyer in sight. If three-fourths of the chasers and destroyers were used for accompanying fleets, the shipping would be preserved and the chasers would be carning their money.

We have boasted, and we have fed ourselves on the boasts of the British navy, and while we are constantly boasting it and while we are constantly dependent upon it, we must acknowledge that the British Navy in some particular cases, has fallen down very severely.

Ramsgate and Dover are English ports right across the Channel from Ostend and Zuburge, and yet the British Navy allows a fleet on several oceasions to sail across the thirty miles of intervening waters between Ostend and Dover and between Zuburge and Ramsgate, and actually bombard the two towns and not a British ship in sight, and only by the merest accident one night did two destroyers, The Swift and The Broke happen on the German fleet and sink several of them and put the rest to flight.

Ships of the British Navy know how to fight and the sailors on the British ships can lick their own weight in wildcats, but they never happen; to be in the right place at the right time.

One would consider with the size of the British navy that it would be a matter of sheer impossibility for a German warship to get within sight of

the owner.

English soil without being blown to pieces, yet not less than ten times during the past year have German warships sailed right up within a few miles of the British coast and bombarded towns. The idea of Dover being bombarded by German warships which got away safely, should stand as a lasting disgrace to the men at the head of the British Navy.

The idea of the Admiralty boasting that in the attack of the German warships on Ramsgate, that only one person was killed and that most of the shells fell in open country. They should be ashamed to announce it. Had they blown the German warships to pieces with shells from the Brit- Office over J C. Farrells Shoe Store ish warships, then they should have done some boasting, but to announce that only one man was killed in the raid, was the announcement of their own weakness, because as far as the British Navy was concerned, there GRIMSBY might have been a thousand, or ten thousand men killed in the same raid. There was nothing to prevent the Germans from blowing the town to pieces. except a bit of luck.

If the German warships could sail across the English Channel and bombard Dover and Ramsgate, what is to prevent the British warships from sailing across the Channel and bombarding Ostend and Zuburge and blowing the wharfs, docks and submarines into the eternal bow-wows? That's what I want to know.

Ameriaen Citizens in Our Army :-

A recent New York Herald despatch from London, which has been copied in some Canadian newspapers contains the actonishing statement that there are 32,000 American citizens in the Canadian forces fighting on the Western front. Of the hosts of the people across the line who have read this statement many doubtless believe it to be true, not because it accords with any previous information they had on the subject, but because the wish is father to the thought. Possibly, too, some of the more heedless of our own people under whose eyes the item came would accept it at its face value. But it is grotes- U. quely untrue, Brigadier-General Mason shows what a foolish fable it is. The General speaks by the book. He has given much attention to the subject of recruiting in this country, and in preparing speeches made from his place in the Senate he has looked closely into the offical figures pertaining to our The large number of ships sunk in the second last week of April, three Expeditionary Force. He shows that at the highest computation the number per cent. He talks about the 32,000 being withdrawn from the Canadian forces and strengthened by 10,000 to be sent from the United States to form an There is no one to blame for this condition of affairs but the stupidity of American army corps. When they begin to muster out the American citizens

It is with a great degree of satisfaction that Canadians have read the loan at lowest rates. Office, "Specialo letter of Brigadier-General Mason published in the leading papers reenctly. There is just one way to overcome the submarine menace and that is to refuting the claim of the New York Herald to the effect that 22,000 United States citizens with the Canadian units, is 7,500, with less than bulf this number in France, In the same letter Brigadier-General Mason says that he has been told that New York papers were sold the other day in the streets to the cry of "Great American Victory at Vimy." If this latter statement is pression, it would seem rather unseasonable to try and wrest the glory of victory from our Canadian boys who have fought and suffered for three

SO THEY SAY.

Don't be carried away by the news that the British and French have captured three thousand villages Some of them may not be bigger than Grimsby.-Beamsville Express

The Editor of the Express need never fear of Beamsville being captured by an invading Army. It is so small the Army would walk over it and never AFTER GRIPPE

Vinol Restored Mr. Martin's Strength

Wapakoneta, Ohio,-"I am a farmer by occupation, and the Grippe left me with a bad cough and in a nervous, weak, run-down condition, and I could not seem to get anything to do me any good until I took Vinol, which built me up and my cough and nervousness are all gone, and I can truly say Vinol is all that is claimed for it."-JAMES MARTIN. Vinol is a constitutional remedy for all weak, nervous and run-down condi-

tions of men, women and children, and for chronic coughs, colds and bronchitis. W. M. Stewart Drug Co. Ltd.

Brimsby, Out. Also at the best druggists in all Ontario towns.

Five Good Reasons for Buying this Good White Lead

- 1. It is absolutely pure, ensuring the brilliancy of any paint in which it is used.
- 2. It has great covering capacity and long life.
- 3. It is of unequalled, uniform "fineness"-is never crystal-
- . It works easily under the brush.
- 5. It need not be scraped or burned off when, after several years, the building requires another paint.

Its high reputation has been gained by nearly 200 years continuous manufacture. Used and recommended by experienced architects, builders, painters, owners.

> SOLD BY LEADING HARDWARE AND GENERAL STORES THROUGHOUT CANADA

An advertisement by The Bell Telephone Co. of Canada to improve PARTY-LINE SERVICE

Co-operation: Each subscriber should co-operate to better the service on his line. The practices suggested below. have been found to greatly improve party-line service:

· 1. Before calling, find out whether the line is in use. If it is, hang up your receiver promptly.

2. Emergencies will arise. If a party-line subscriber desires to make an emergency call, the persons using it should give up the line temporarily.

3. Do not allow children or others to listen or interrupt your neighbor's conversation when the line is in use.

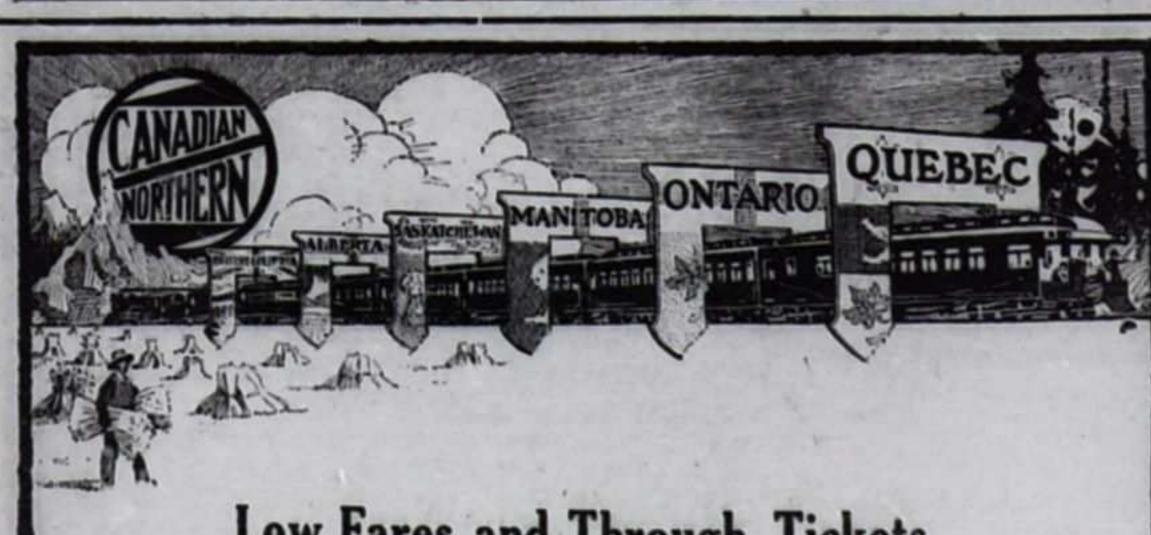

4. Make your calls as brief as possible. Short talks will keep the line open and make the service of most value to every-

5. Answer promptly when you hear your ring.

The Bell Telephone Co. of Canada

"Good service " " our true intent."

OBITUARY

DEATH OF BARTHOLOMEW OCONNELL

Bartholomew O'Connell a wellknown resident of South GRIMSBY. passed away Thursday night at the residence of his son, John, 119 Gibser avenue, Hamilton, For over fifty ears deceased was a prosperous far mer in that district. He was born in Cahirciveen, county Kerry, Ireland, 87 years ago, and came to Canada in the year 1851. For the last two years he has been living retired with his son in Hamilton. He leaves to mourn his demise, besides his wife, two sons, William of South GRIMSBY, and John, of Hamilton. The funeral took place Monday morning from the residence of his son, to St. Ann's church, thence to Holy Sepulcher for interment.

DEATH OF MISS MARGARET MOGGACH

Miss Margaret Moggach, only insects. laughter of Mr. and Mrs. Joseph and sister of Mr. Fred Moggach of the

a nurse at the Memorial Hospital when she contracted pneumonia and in spite of the best medical aid passed away last Saturday afternoon.

The funeral took place on Tuesday May 1, from the Presbyterian Church, Beamsville, where the services were held, to Mount Osborne Cemetery, Béamsville, where the interment took place. Services were conducted at the church and graveside by the Rev. Mr. Laing.

The deceased lady is survived by three brothers at home, Bert, Fred, and Henry, and two brothers in the trences in France. She is also survived by her parents.

DEATH OF MRS. WILLIAM OLM-STEAD

The many friends and relatives of Mrs. William Olmstead were grieved to learn of her death on Monday. The following letter was received April 30, at her home on Livingston last week by Mrs. Wm. Cowan, On-Ave., GRIMSBY, at the age of sixty- tario St., from her son, William, over-

The deceased lady was a daughter. of the late Thomas Muir and a sister of Mrs. Robert H. Walker of South GRIMSBY and T. D. Muir, GRIMSBY, er Ewert, just one week before the She had lived practically all her life latter was killed. in the township of North GRIMSBY with the exception of lifteen years when she resided in South GRIMSBY.

Golden Text:- Whosoever would be first among you, shall be servant of all." Mark 10:44. Come with us and let us worship the Lord together.

Something like a reveresed periscope is a new implement to help a railroad construction foreman to in spect newly laid rails to see if they are level and in line.

Conducted by Dr. R. A. Alexander, M. O. H.

Hygiene and Sanitation,

We use the word "Hygiene" to include the care of the person, in contrast to "Sanitation" which deals with the surroundings or environment. We speak of the hygiene of the teeth, of sleep, of bathing, exercise, food drink, and of those conditions intimately associated with the body. We speak of te sanitation of the home, of schools, of farms,

Sanitary Scinece considers the air, soil, climate, and our surroundings a they affect health. Sanitation is largely impersonal, hygiene is personal.

"Contagious" and "Infectious"

These are popular terms which are not scientific or precise, A "contagious" disease is one that is readily communicable or "catching." The word is derived from a Latin word meaning "to touch" and was at one time confined to diseases which were supposed to be "caught" from one having the disease

An "infectious" disease is usually considered to be one not conveyed directly and obviously as in the case of contagious diseases, but indirectly through some other medium. Typhoid fever was often taken as a type of infectious disease.

Thes distinctions are entirely artificial, and serve no useful purpose. Infectious disease may be contagious, and contagious disease infectiou, and both terms leave out a large class of communicable diseases conveyed by

The word "communicable" is therefore much better and broader in every Moggach, of the township of Clinton, way, and should be used in preference to either of the above terms.

A "communicable" disease is one caused by a specific "virus" transfer-Post Office Staff, GRIMSBY, passed red in a great many ways. Thus the virus in Diphtheria is the diphtheria baaway at the Memorial Hospital, Nfa- cillus; in Typhoid fever, Typhoid baceil; in Malaria, the Malaria parasite gara Falls, N.Y., on Saturday, April carried by mosquitoes. There is a great difference in the ease with which 28, 1917, at the age of twenty-three differenct diseases are conveyed. Measles and Small Pox are conveyed readily from one person to another, while others are communicated with difficulty. Miss Moggach, who was a very es- Tubrculosis is commy icable, and yet a very long time may clapse between teemable young lady, was training for the time of infection and the development of symptoms of the disease.

We can control our environment to a great extent, and can for instance destroy insects like mosquitoes which carry Malaria and Yellow Fever, or destroy lice which convey Tphus Fever. But it is very difficult to control man himself, because it requires his own consent. It is therefore easier to stamp out Yellow Fever through a campaign against the disease-carrying mosquito, than it is to stamp out Typhoid Fever which is carried and spread from one human being to another.

Warning

Complaint has been made that the butchers and others have been dumping fermenting and putrefying refuse on the public dump. This practice

All decaying and putrescent refuse must be burned or buried.

The legal penalty will be enforced in every case of infraction of the law.

AND NOW FOR SEEDING

Soil Should Be Allowed to Warm Up before Planting.

SOME FIRST CROPS TO PUT IN

Beans Are a Splendid Food Product to Grow This Year-How to Proceed in Several Lines.

By S. C. JOHNSTON, Vegetable

Specialist. Ontario Department of

Agriculture, Toronto.) Having discussed the methods of preparing the garden soil to receive the seed we now turn to the sowing of the seed itself. There is no need to hurry the sowing of the seed. Better results will be obtained if the amateur gardener will wait until the soil is warm and easily worked. The vegetables discussed are arranged Chatham, Ont. as nearly as possible according to the time they should be planted.

LETTUCE. Lettuce is grown for its leaves, and is our best known such as tomaloes, or it may be plantat one time and follow this with successive plantings made every ten iscesses from which women suffer. days or two weeks until July 1st. The lettuce seed may be sown in 50 years than any other known remedy rows comparatively thinly at a depth it can now be had in sugar-coated tablet of a quarter of an inch. The plants should be thinned to stand two inches

If one desires large single heads of lettuce the plants should be thinned to stand from seven to nine inches apart. The thinnings may be transplanted to another part of the

RADISH. The radish plant is grown for its roots, which are eaten raw just as soon as they are large enough to use. It is quite hardy, and may be planted very early in the spring. Radishes are frequently sown with other crops which are not such rapid growers, such as paranips. They should, however, be pulled out before the parsuips or other crops need the ground. Successive planting is also advised for this crop. Radish seed may be planted in rows, four inches apart or broadcasted, the depth preferred being from a quarter to half an inch only. Radish as a general rule require no thinning, and the soil between the rows should be kept loose with the hoe. A crop of winter radish may be obtained if the seed is sown about the first of August, These should be thinned out to three inches

SPINACH. Spinach is a short season crop which is grown to provide table greens. The plant matures in about six weeks from planting, and seed should be sown very early in the spr'ng, as the plants run to seed during the hot summer months. The seeds may be planted in rows or broadcasted, and should be sown at a depth of one half inch. Successive planting may be made if so desired. When the leaves are large enough to use they may be pulled off or the whole plant may be cut from the

ONION. The onion is grown for

seasoning, pickling, and for eating raw. A large percentage of onions stored for winter use are grown from moist and well drained, but fresh of about one-half inch, and the rows should be from twelve to fourteen inches apart. The seed should be planted very thinly so that there when the onion tops are such a size as to prevent easy work. In the fall when the tops are about two-thirds died down the onions should be pulled and laid in windrows so arranged that the bulbs are covered with the tops of the onions. This prevents any sunburn which causes considerable trouble in storage. After they have been kept in this position for five or six days they may be gathered up and placed in a slat box or basket and tied up some way so that the rain will not get at them and the wind will have plenty of chance to circulate around the bulbs. The tops may be removed from the onions at this time if so desired, or they may be left in. Dutch sets may be planted as close together as they will stand in a straight row very early in the season. They should be barely covered with soil, which should be well firmed by tramping Village of Grimsby, on on it, and the green onions should THURSDAY, the 3rd day of MAY, 1917. be pulled as soon as they are ready for use. PEAS. Peas may be planted very

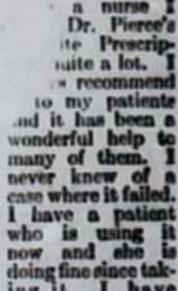

early in the season, and for the early crop the seed should be sown in a furrow of two inches deep and the seeds placed an inch apart. Some arrangements should be made so that the pea vines will have some supwire may be used for this purpose, as the vines will cling to this for supground. This upport should be set preferably at the time of planting. the vine. BEANS. Generally speaking, it is

deep loam. The seeds should be The rows being at least eighteen in- Indhousie, Land suitable for tomatoes, ches apart. A furrow two inches potatoes and all kind of vegetables, of this furrow. Another way which beans is to make holes two inches | per cent., half-yearly. deep twelve inches apart and in each hole three or four seeds be placed. The land will be sold in three parcels. Famine and World-Hunger Are On Our Threshold

in the nation's honour, heed! Acquit yourselves like men. As workers on the land, do your duty with all your strength!" -Lloyd George.

THE CRISIS

France, England and Italy in peace times did not depend upon America but on Russia, Roumania and Bulgaria for most of their breadstuffs. With these sources closed the crisis of the hour demands that we see that our soldiers and the Motherland are fed.

Everyone in Great Britain has been put on limited rations: meat is prohibited one day a week and the making of cakes and pastry has been stopped. Further restrictions are anticipated.

Bread has gone to 28c per four-pound loaf in England, for the first time since the Crimean War.

Lord Devonport, British Food Comptroller, proposes taking authority to search the houses of Great Britain to prevent food hoarding.

Forty million men, less the casualties, are now on active service.

Twenty million men and women are supporting them by service in other war activities.

In the last analysis, the land is bearing this burden.

One million tons of food-carrying ships have been

torpedoed since February 1st, 1917. Germany's hope for victory is in the starvation of Britain through the submarine.

Canada's sons will have died in vain if hunger

compels the Motherland's surrender. The land is waiting—the plough is ready—will we make the plough mightier than the sword?

Will we help the acres to save the flag?

World-Hunger Stares Us in the Face

David Lubin, representative of the United States to the International Institute of Agriculture-maintained by forty Governments-reports officially to Washington that the food grains of the world on March 31st, 1917, showed a shortage of 150,000,000 bushels below the amount necessary to feed the world until August, 1917. He declares it is beyond question that unless a greater acreage is put to crop in 1917 there will be WORLD-HUNGER before the 1918 crop is harvested.

The failure of the grain crop in the Argentine Republic, which is ordinarily a great grain-exporting nation, resulted in an embargo being placed, in March, 1917, upon the export of grains from that country to avert local famine.

The United States Department of Agriculture, in its official report, announces the condition of the fall wheat crop (which is two-thirds of their total wheat crop) on April 1st, 1917, to be the poorest ever recorded and predicts a yield of 244,000,000 bushels below the crop of 1915. The 1916 crop was poor. Even with favorable weather, the wheat crop of the United States is likely to be the smallest in thirty-five years, not more than 64% of the normal crop.

Under date of April 10th, Ogden Armour, executive head of Armour & Company, one of the world's largest dealers in food products, stated that unless the United States wishes to walk deliberately into a catastrophe, the best brains of the country, under Government supervision, must immediately devise means of increasing and conserving food supplies. Armour urged the cultivation of every available acre. The food shortage, he said, is world-wide. European production is cut in half, the Argentine Republic has suffered droughts. Canada and the United States must wake up!

Hunger Tightening Grip New York Evening Mail

People are starving to-day in Belgium, in Serbia, in Poland, in Armenia, in many quarters of the globe.

Famine conditions are becoming more wide-spread every . day.

On these alarming food conditions becoming known, President Wilson immediately appointed a Food Comptroller for the United States. He selected Herbert C. Hoover, to whom the world is indebted as Chairman of the International Belgium Relief Commission for his personal direction of the distribution of food among the starving Belgians.

Mr. Hoover is already urging sacrifice and food restric-tions, for, as he states, "The war will probably last another year and we shall have all we can do to supply the necessary food to carry our Allies through with their full fighting

The Problem for Ontario

The land under cultivation in Ontario in 1916 was 365,000 acres less than in 1915.

Consider how much LESS Ontario produced in 1916 than she raised in 1915:

	Year	Acres	Bushels	1916 DI	Bushels
Fall Wheat	. 1916	704,867 811,185	PART LONG CO.	105,315	9,794,961
Barley and Oaks	4	529,886 552,318	12,388,969 19,893,129	24,432	7,504,160
Peas and Beans		95,542 126,943		31,401	799,070
Corn	1000	The second		51,441	9,043,424
Potatoes and Carrois .	. 1916 . 1915			34,411	5,858,594
Mangel-Wurzels and Turnips	100000	50,799		8,006	15,600,308

Other crops show as critical decline.

Reports from Ontario on the condition of fall wheat for 1917 are decidedly discouraging.

As there is an average of not more than one man on each hundred acres of farm land in Ontario, the prospects indicate even a still smaller acreage under cultivation in 1917 unless extra labor is supplied.

A 15-year Old Girl at Work

Miss Alexandra Smith, one of the thousands of British women workers on the land. She recently won an All-Comers' Champion prize for plowing.

Food Production is the Greatest Problem the World Faces To-day

Cwing to destruction by submarines, ocean ships are scarce.

It is much easier to protect shipping between Canada and . England than on the longer voyages from India or Australia.

One vessel-can make twice as many trips from Canada to Britain as from India, and four times as many as from Australia.

Therefore, every ton of food stuffs grown in Canada is worth to the Motherland two tons grown in India or four tons grown in Australia.

Why the Call to Canada is So Urgent

If this country does not raise a big crop this year, not only will the people of Canada suffer but the Motherland and her Allies will suffer and their military power will be weakened if not paralyzed. Therefore, the right solution of the present war problem comes back to the farm, as to a foundation upon which our whole national and international structure must be built

The Second-Line Trenches

-MeCny in The New York American.

The farmers know that they are the last reserve, and that the soil on which crops are grown is the strategic ground on which wars are decided. To their care is entrusted the base of supplies.

To enable the farm to do the work two factors are essential. The first is Time. Whatever we are to do must be done at once. Nature waits for no man. The second is Labor. Many farmers cannot plant the acres they would because they cannot get the necessary help. Many are afraid to increase their acreage because they fear they would not be able to cultivate and harvest an unusual crop after they have raised it. If they are to do the work that is essential for them to do, the last man in each city, town and village must be mobilized at once.

Every man not on Active Service can help. In every city, town and village are men who, by their training on the farm, or by their present occupation, can readily adapt themselves to farm work. These can render no greater service to the Empire at the present time than by answering the call of the farm. Capable men and boys willing to learn should not allow their lack of farm experience to stand in the way.

Can the employer render a more signal service in this crisis than by encouraging these men to help the farmer to cultivate every available acre, and by making it easy for them

Ontario's farm lands are waiting-the implements are ready—the equipment is complete—the farmer is willing—all he needs is labor.

So short is the world's food supply that without increased production many in Canada must go hungry, and even with enormously increased production we cannot expect cheap food. The world is waiting for our harvest.

If peace should be declared within a year, the food conditions will be no better, for the accumulated hunger of the Central Empires must be met. This will absorb a large part of the world's supply.

We do not know when this war shall cease. It is endlessits lengthening out has paralyzed the thought and conception of all men who thought about it and its possible time of conclusion. Three months-six months, we said; nine months, a year, we said; and yet two years and eight months have passed their long dreary and sanguinary length and there is no man who can tell how long this gigantic struggle may yet last.

Lloyd George, in a letter addressed to farmers throughout the Empire, said:

"The line which the British Empire holds "against the Germans is held by those who WORK "ON THE LAND as well as by those who fight "on land and sea. If it breaks at any point it "breaks everywhere. In the face of the enemy the "seamen of our Royal naval and mercantile marine "and the soldiers gathered from every part of our "Empire hold our line firstly. You workers on land "must hold your part of our line as strongly. Every "full day's labor you do helps to shorten the strug-"gle and brings us nearer victory. Every idle day, "all loitering, lengthens the struggle and makes de-"feat more possible. Therefore, in the nation's "honour, heed! Acquit yourselves like men, and as "workers on land do your duty with all your "strength!"

So, for the honor of Canada's soldiers in France-and for the glory of our New-born Nationhood-let it be said of Ontario's citizens that, in the hour of our greatest need, their response was worthy of their sons.

We owe a great debt to those who are fighting for us.
